IL MEGLIO DELLA CHIMICA PER L'AUTO

## Una tradizione di famiglia

### A family tradition

---

Dal 1975, più di 40 anni fa, tre generazioni della stessa famiglia hanno proseguito la passione di Aldo Turcatel, il fondatore, per le macchine e le corse. Una passione che è diventata un'attività nel settore della pulizia, cura e manutenzione necessarie per il settore automotive ma non solo... dai motori a tutta l'auto, dalle grandi macchine da trasporto e da lavoro, alle moto, alla nautica, fino agli autolavaggi, le officine e gli ambienti industriali.

---

For more than 40 years, since 1975, three generations of the same family have followed the passion of the founder, Aldo Turcatel, for cars and racing. In this time, this passion has become a business in the automotive cleaning, care and maintenance sector, and it now focuses on many different aspects, from engines to cars, from large goods vehicles and construction equipment to motorcycles, boats, car washes, workshops and the industrial sector.

---

## **Stile e tocco italiano**

### **Italian style and touch**

---

Conoscere ed apprezzare la bellezza e cercare di preservarla nel modo migliore che spesso è anche quello più innovativo... attenzione ai particolari e all'effetto d'insieme per risultati eleganti oltre che impeccabili.

---

It means to know and appreciate beauty and commit to preserve it in the best possible way, which is often the most innovative... To take care of the whole as well as the details, for elegant and impeccable results.

---

## **Bellezza, manutenzione e servizio** **Beauty, maintenance and service**

---

Per il tuo autolavaggio, per la tua attività o anche solo per la tua macchina, una squadra di prodotti di alta qualità. Come un vero team professionale, le proposte di Altur si prenderanno cura di tutte le parti della tua auto e della tua attrezzatura, nessuna esclusa e nel modo migliore.

---

A range of high-quality products for your car wash, your business or simply for your car. As a professional team would do, Altur's products take care of every single part of your car and equipment in the best possible way, with no exception.

---

A COMPLETE RANGE OF PROFESSIONAL PRODUCTS AT YOUR SERVICE

5

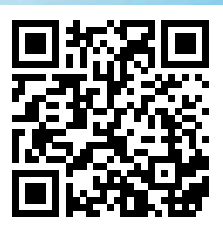

## Le migliori soluzioni per la tua macchina

### The best solutions for your machine

Produzione e vendita di una gamma completa di prodotti professionali per la pulizia e manutenzione dei veicoli: dal motore all'abitacolo, dalla carrozzeria alle ruote. Auto, camion, moto, imbarcazioni, macchine operatrici e macchinari, fino all'autolavaggio, alle officine, agli ambienti industriali sono i settori in cui vengono utilizzati i prodotti Altur.

Production and sale of a wide and comprehensive range of professional products to clean and maintain vehicles: from the engine to the dashboard, from the bodywork to the wheels. Altur products have a wide range of uses, from cars, trucks, motorbikes, boats, industrial vehicles and machinery, down to car washes, workshops and industrial facilities.

## 6 **Ricerca e Sviluppo** **Research and Development**

---

L'alto standard di qualità dei nostri prodotti è dato da:

- La propensione alla ricerca di soluzioni innovative
- Lo sviluppo della ricerca nel nostro laboratorio interno
- Il rispetto di tutte le normative Europee più recenti ed avanzate

I prodotti vengono controllati e verificati a tutto ciclo, dalla progettazione alle materie prime in entrata, alla qualità della produzione finale e dei servizi accessori, al fine di garantire uno standard qualitativo sempre costante all'altezza delle Vostre aspettative.

---

The high quality standards of our products derive from:

- Our commitment to keep searching for innovative solutions;
  - The research and development taking place in our in-house laboratory;
  - The compliance with the latest and most advanced European regulations;
- All our products are checked and tested throughout the production cycle, from the formulation and the raw materials being used to the quality of the final products and complementing services, in order to guarantee the best quality standards to meet your expectations.
-

## Lucidatura e protezione impareggiabili Unbeatable Shine and Protection

ALTUR si distingue nel mercato per lo sviluppo di prodotti speciali che forniscono ai veicoli trattati brillantezza e protezione imbattibili. Questi prodotti sono basati sull'esclusiva nano-molecola Luxan-Z, con proprietà amino-funzionali.

Le autovetture trattate con questa tecnologia possono beneficiare dei seguenti vantaggi:

- elevato grado di protezione della carrozzeria contro i raggi UV
- elevato grado di gloss della vernice, la superficie risulta incredibilmente lucida ad effetto specchio
- effetto liscio e vellutato al tocco.

ALTUR stands out in the market for its development of special products that provide an unbeatable shine and protection to all vehicles. These products are based on the exclusive nano-molecules Luxan-Z, with amino-functional properties.

All vehicles where this nanotechnology is applied can benefit from the following advantages:

- High degree of protection from UV rays;
- Long-lasting polishing action and mirror-shine look;
- The surfaces are smooth as velvet to the touch.

## TOP CLEANER BIO

THE ENVIRONMENTALLY-FRIENDLY  
PARTS WASHER

CHOOSE INNOVATION,  
HEALTH AND  
THE ENVIRONMENT  
CHOOSE  
**TOP CLEANER BIO**

Reasons to choose the Top  
Cleaner Bio parts washer  
with Bio Clean:

### Efficiency

This washer's efficiency is up to 4 times better than that of traditional solvents, thanks to the microorganisms that keep it clean.

### Results

Excellent and consistent cleaning power, even with increasing amounts of dirt; on the contrary, traditional solvents usually get saturated with oils very quickly.

### Convenience

The liquid does not require to be disposed or substituted, only to be topped up from time to time.

### Safety

10 Zero dangers for the user, zero harmful emissions in the atmosphere. This product cleans any without attacking its external coatings, as well as plastic and rubber. Bio Clean is completely bio-degradable, nonflammable, and without solvents

### Simplicity

It does not require any kind of aspiration/ventilation system, analysis of the work environment or of the atmosphere emissions; waste production is significantly lowered.

### Longevity

It is entirely made in Italy with corrosion-resistant stainless steel

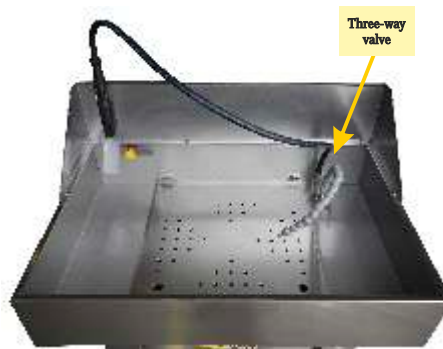

### Practicality

It is always ready to use, since the microorganism feeding system always keeps the liquid at a functioning temperature of 40-45°C

An environmentally-friendly parts washer that is MADE IN ITALY. A safe and efficient alternative to traditional parts washers with tank that usually require the use of solvents that are dangerous both for the environment and the users.

Command Pedal

Three-way valve

Tank for the soaking of the parts

Sectors of use: workshops, cars and related sectors, mechanical industry, chemical and pharmaceutical industries, production, automation, maintenance, aeronautics

This product includes: flow-through brush, loc-line tap, external indicator of the level of the product, submersible water pump, heating tank, oxygenator, "too full" system, filter with 70 um container, soaking tank, command pedal, 3-way valve for the loc-line tap/flow-through brush.

Technical specifications:

Depth:	600 mm
Width:	900 mm
Height:	1235 mm
Work surface:	900 x 600 x 170 mm
Maximum tank capacity:	65 L
Working temperature:	40 - 45°C
Max. load of the work surface:	30 kg
Empty weight:	40 kg
Power supply:	230 V
Pump power:	45 W
Oxygenator power:	5 W
Resistance power:	1,2 kW

## BIOCLEAN

Biodegradable VOC-free liquid, pH-neutral, for the Top Cleaner Bio parts washer

- Degreasing liquid for environmentally-friendly, pH-neutral parts washers
- Easy to use, eco-friendly and convenient;
- It dissolves and eliminates working oils, cutting fluids, corrosion protection products, light grease, various types of dirt from engines;
- The liquid's service life is more than 4x longer compared to that of traditional detergents;
- Consistent cleaning performances over time;
- It is VOC, NTA, PBT and vPvB free, compatible with the ONORM B5105 norms

Pros: this product does not pose a danger both for humans and the environment, it is efficient and budget-friendly; waste production is greatly reduced.

Way of use: Pour the Bio Clean liquid as is in the parts washer while keeping a temperature of 40-43°C and the oxygenator running.

Code Packing  
EBIO25 25 kg

TAKE THE POWER OF BIO CLEAN TO THE NEXT LEVEL

## BIOSOLV HD SPECIAL

Quick multipurpose pre-treatment liquid

IT DEBLOCKS - REMOVES - DISSOLVES - LUBRICATES - RENOVATES - PROVIDES LONG-LASTING PROTECTION

- This product is formulated with innovative organic solvents. It is perfect both for industrial and for professional usage;
- Characterised by low volatility and a highly-wetting cleaning power, it makes parts washing easier;
- Safe for the user, non-toxic, non-carcinogenic, non-corrosive: you only need to wear protective gloves and glasses to avoid possible eye or skin irritation;
- Non flammable**, ready to use;
- Highly biodegradable, not miscible with water, it quickly separates; this makes it easy to catch it on the surface with an oil-skimmer together with the sludge resulting from the washing.

- DEBLOCKS** It deblocks old oxydised studs and bolts, instruments, pliers, scissors, etc.;
- LUBRICATES** It lubricates any mechanism, hinge, track where a gliding veil is required;
- DISSOLVES** It dissolves rust and graphite, stubborn grease and even burned oils;
- PROTECTS** It prevents iron alloys from oxydisation; it also protects them from leakage of electric current in the medium and long term

11

### CLEANING TEST

PART BEFORE TREATMENT

PART CLEANED WITH BIOSOLV HD

### PROTECTION TEST

ON UNCOATED STEEL

Results after one week from the product application, when the part was exposed to rain and bad weather:

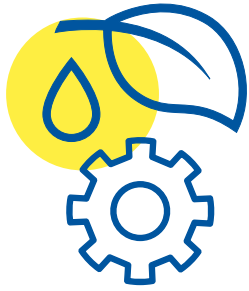

Code Packing  
EBSHDS500 Spray ml.500 x 12 pcs  
EBSHDS5/10/25 5 / 10 / 25 kg

- It dissolves acrylic varnish, ABS and PVC plastic
- The use of BIOSOLV HD is not advised for parts that need to be repainted and/or galvanised

**BIOSOLV HD SPECIAL can be safely used as a pre-treatment and descaler in eco-friendly parts washers as it does not kill the bacteria present in the wash bath.**

## Innovative degreasers made with natural substances

We at ALTUR are constantly pursuing innovation in the field of industrial chemistry, and we stand out for the production and sale of degreasers made with natural substances. These products allow both workshops and industrial facilities to work in respect of the health of the workers and the environment. This also means that the cost of medical checkups is reduced.

**BIOSOLV E150**

Quick degreaser for mechanical cleaning and painting. Characterised by a low impact on the users and the environment, it quickly dissolves oil and various types of grease, even the most stubborn, resin, wax, adhesive glue, acrylic varnish etc.

EBS15025 - Jerrycan kg. 25

**BIOSOLV EC62**

Biosolvent for dissolving resins. Atoxic, non-flammable, safe and efficient. It softens adhesive and resin from work tools and instruments.

EBS6225 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO1**

Degreasing multi-purpose microemulsion for the cleaning of mechanical parts and surfaces. An ideal substitute for traditional solvents. VOC-free. It can be used with a cloth or piece of paper, brush, in hot/cold water/ultrasonic and immersion parts washers.

EIC125 - Jerrycan kg. 25

12

**INDUSTRIAL CLEANER ECO3**

Concentrated detergent for the final cleaning by hand, brush or machinery of any equipment, plastic surface, polycarbonate, glass, mirror, painted wood, stainless steel etc. It eliminates handprints as well as marker stains. Thanks to its non-flammability, it is a valid alcohol substitute.

EIC325 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO2**

Concentrated detergent for the final cleaning by hand, brush or machinery of any equipment, plastic surface, polycarbonate, glass, mirror, painted wood, stainless steel etc. It eliminates handprints as well as marker stains. Thanks to its non-flammability, it is a valid alcohol substitute.

EIC225 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO4**

Concentrated alkaline degreaser. It removes dirt, dust, oil and heavy grease, glue and adhesive etc. Ideal for use in combination with a pressure washer or with ultrasonic/brush parts washers. Maximum temperature 45°C.

EIC425 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO6**

Concentrated alkaline degreaser for intensive cleaning. Caustic product, do not use on aluminium or brass alloys. Perfect for high pressure washers or ultrasonic parts washers. Maximum temperature 45°C.

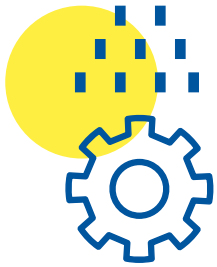

EIC625 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO8**

High-performance degreaser for cold and hot water washing up to 45°C. Compatible with ferrous metals and alloys. Ideal for use with ultrasonic parts washers.

EIC825 - Jerrycan kg. 25

Degreasers

High-performance products for the degreasing of mechanical parts, surfaces and metals. This category includes the classic engine degreaser up to more specific products like the ultrasonic parts washer degreaser.

Solvent-based products  
For brakes and clutches and  
the rapid cleaning of engines

**NEW**  
with  
depressurisation  
valve

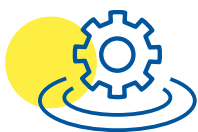

BRAKE 601N  
and EBT 910

**A-TYPE 1.5 PRO PA VITON PUMP**

Pressure pump sprayer with viton seals, 1.5-litre capacity, for aromatic and aliphatic hydrocarbons, oils and petroleum solvents. Do not use with alkalis and ketones (including acetone), alcohols and acid products. For: brake and engine cleaning, degreasing, dewaxing products, etc.

R18805- Pump sprayer with 1.5L bottle capacity - Single pack

Emulsifiable  
Solvent Degreasers

**BRAKE 601N**

Degreasing solvent, without chlorinated solvents, for the cleaning of brake discs, pads, blocks and drums. It does not oxidise the surfaces where it is applied. Highly volatile product.

ESEA25 - Aluminium Drum It.25

**EBT 910**

Non-polar degreasing solvent, without chlorinated solvents, excellent for the cleaning of disc and drum brakes. Suitable for dry finish cleaning, e.g. for electric components; highly volatile. Finish with air blow gun.

ESEPT25 - Aluminium Drum It.25

**Jumbo**  
500 ml

**LAVAFRENI SPRAY**

Degreasing spray, solvent-based, without chlorinated solvents, perfect for the rapid cleaning of disc and drum brakes. Spray directly on the part to be treated, then finish with air blow gun.

ELAVF500 - Spray can ml. 500 x 24 pcs

**NEW**

**BRAKE FLUID DOT4**

DOT4 brake fluid for traditional brake systems and ABS. Very low moisture absorption, it can also be used on motorcycles. The product lasts more than 3 years inside the brake system.

EBF4250/1000 - Bottle ml. 250 x12 pcs / ml. 1000 x 24 pcs

**EMULSOL C/237 L**

Solvent for the degreasing of sheet metal, fuel tank reclamation, burner cleaning and boilers stained with lampblack. Contains natural citrus extracts. Low volatility.

EESOL23725/220 - Jerrycan It. 25 / Plastic drum It. 200

**EMULSOL PL2814**

Concentrated atoxic microemulsion, low-odour, for the rapid cleaning and degreasing of small mechanical parts, metal sheets, petrol tank reclamation, the elimination of greasy and bituminous residues from metallic surfaces, the dewaxing of paraffine wax and the cleaning of workshop floors. It also eliminates the traces left by forklift and pallet truck tyres.

EEMU25 - Jerrycan kg. 25

## For Cold Parts Washers

VOC 100%

### DEOSOL A40C

Degreasing solvent for use in cold and brush parts washers. With natural citrus extracts. Medium volatility.

EDSOLC10/25 - Aluminium Drum It. 10 / 25

VOC 83%

### VASCA SOL X4

Degreasing solvent for use in agitating and rotary drums parts washers. Use only with cold temperature. Can be diluted at 50% with non-chlorinated solvents.

EVSOLX425 - Aluminium Drum It. 25

## For Hot Parts Washers

VOC FREE

### VASCAMOTOR

Solvent-free degreaser, for hot, rotary drum, ultrasonic and high-pressure parts washers. Excellent degreasing power on metallic components, it does not damage rubber and plastic parts. It provides a deoxidising and protective effect on ferrous metals, with a rapid oil separation.

EVMOT10/25 - Jerrycan kg. 10 / 25

VOC 8%

### INDUSTRIAL CLEANER A18

Highly concentrated emulsifying degreaser for the cleaning of mechanical parts in hot parts washers; delicate on rubber, plastic, aluminum and alloy parts. It does not allow oil separation.

EIC1825 - Jerrycan kg. 25

14

### INDUSTRIAL CLEANER ECO8

High-performance degreaser for cold and hot parts washers. Excellent degreasing power on different types of oils and grease, processing residues and dust. Suitable for use in ultrasonic parts washers, non-flammable. Delicate on metals that are subject to oxidation, low foaming.

EIC825 - Jerrycan kg. 25

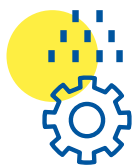

PICKLING PRODUCT

### ULTRA S-005

Water-based detergent for ultrasonic parts washers, suitable for the cleaning of small parts, injectors and degreasing in general. Characterised by its excellent degreasing, solvent and pickling effect, it is safe for use on seals and rubber, it does not cause rust.

EUS10 - Jerrycan kg. 10

## Water-based Multipurpose Degreasers

### SGRASSANTE UNIVERSALE

Perfumed water-based eco-friendly degreaser, solvent-free, excellent for the degreasing of all hard surfaces.

EDSU10/25 - Jerrycan kg. 10/25

### SGRASSATUTTO XP1

Multi-purpose perfumed degreaser, ideal for the cleaning of any type of solid surface: engines, painted wood, tiles, plastic laminate, glass, stainless steel, iron and other metals.

ESUX10/25 - Jerrycan kg. 10/25

**MULTIX**

All-purpose perfumed degreaser, perfect for universal use on hard surfaces, painted wood, tiles, plastic laminate, glass, stainless steel, iron and other metals, for the degreasing of filters and extractor hoods. For hot/cold water engine cleaning, safe on motorbikes and scooters. Safe for use on aluminium surfaces. Can be used without rinsing.  
 EMU750/10/25 - Spray bottle ml.750 / Jerrycan kg. 10/25

**VIPER**

Multipurpose perfumed degreaser, for hard surfaces, plastic, fabric, leather, painted wood, stainless steel, industrial floors. It eliminates both organic and inorganic dirt while revitalising the colours of the surfaces. Ideal for use in the kitchen on filters, extractor hoods, counters and sinks. Contains caustic substances.  
 EVIP10/25 - Jerrycan kg. 10/25

**KRYPTO**

Multipurpose degreaser for washable surfaces: vinyl, faux leather, fabric, rubber, plastic, tiles, engines, machine tools, filters, rims, and for bug removal. Suitable for use in the kitchen (filters, extractor hoods, appliances), counter and stainless-steel sinks, for general cleaning and floors.  
 EKR10/25 - Jerrycan kg. 10 / 25

## Degreasers for Pressure washer cleaning

**LAVAMOTORE**

Solvent-free degreaser, excellent for the rapid cleaning of mechanical parts and engine exteriors, chassis, agricultural machinery and rotating parts.

EELM10/25 - Jerrycan kg. 10 / 25

**XP/39**

Strong degreaser for the cleaning of engines, industrial and earth-moving machinery. Suitable for use with hot water with a pressure washer. For the degreasing of industrial floors, tiles, walls, etc. Excellent as an algae remover.

E3910/25 - Jerrycan kg. 10 / 25

**XP/39 03P**

This product degreases the surfaces thoroughly even without any type of mechanical or manual action. It eliminates both dust and grease. Excellent for the degreasing of engines and mechanical parts. Ideal also for floor cleaning. Lemon fragrance.  
 EP3925 - Jerrycan kg. 25

**INDUSTRIAL CLEANER ECO6**

Water-based degreaser for intensive washes, with natural ECOLABEL surfactants, it eliminates different types of dust, oil and grease, moulding and plastic/metal treatment residues. Also ideal for use in ultrasonic parts washers, it is compatible with wastewater treatment.  
 EIC625 - Jerrycan kg. 25

**INDUSTRIAL CLEANER A14**

Highly-degreasing alkaline detergent, it efficiently cleans metallic surfaces of any type and function, engines, heavy plants, metallic structures, heavy metal carpentry, etc. It quickly and thoroughly eliminates all types of grease and dirt.  
 EIC1425 - Jerrycan kg. 25

**INDUSTRIAL CLEANER A15**

Highly-caustic alkaline detergent, excellent for the cleaning of ferrous metals, it can also be used in workshops on engines, chassis, etc. It quickly and thoroughly eliminates grease, rust and organic dirt. Do not use on alloys.

EIC1525 - Jerrycan kg. 25

**MOTOMEK**

Concentrated degreaser for all types of motorcycles and scooters: for the degreasing of engines, mechanical parts, forks, chassis, rims and all metallic parts such as exhaust pipes, sprockets, bolts, chains etc. Safe on aluminium alloys and even on hard plastic surfaces. It can be used for the cleaning of mechanical parts in ultrasonic parts washers.

EMM10 - Jerrycan kg. 10

**RP 100 RAVVIVANTE MOTORI**

Specific product for the restoration of the interior of the engine compartment, metal, plastic and rubber parts. Silicone-free, it does not leave any residues.

ERP400 - Spray can ml. 400 x 24 pcs

## Acids and Detergents for Iron Removal

**CEMENTIL**

Acid detergent for the removal of concrete and limescale from vehicles, concrete mixers, carpentry, formworks, etc.

ECEM10/25 - Jerrycan kg. 10/25

**INOXALL**

Detergent for stainless steel and aluminium surfaces, it eliminates grease, dust, smog and greasy smoke. Equally excellent on carbon residues caused by aluminium electron-beam welding, it also removes any silicone or oil trace on aluminium metal sheets.

EINOX25 - Jerrycan kg. 25

**INOXALL RADIATORI**

Detergent for brass and aluminium radiators, it cleans the liquid antifreeze passageways from limescale and the inhibitors blocked by glycol residues. Dilute to 50% in water, soak the parts for 12 hours. Rinse well after cleaning, then finish with a blow air gun.

EINOXC25 - Jerrycan kg. 25

**FOSFOSGRASSANTE XP2**

Passivating and degreasing phosphate conversion coating for metal surfaces, for use before the painting phase. It provides a short term protection before the painting phase. Ideal as a product in a process line.

EFX25 - Jerrycan kg. 25

**OXYBRILL**

Acid detergent for alloy rims and all aluminium and stainless-steel surfaces that are typically found in truck and tows. It restores aluminium sides, tanks, reservoirs, stainless-steel exhaust pipes, rims and brings them back to their original state. It removes iron oxide and contamination. WITH HYDROFLUORIC ACID.

EOB10/25 - Jerrycan kg. 10 / 25

## Motorcycle, Scooter and Moped Maintenance

**MULTIX**

All-purpose perfumed degreaser, perfect for universal use on hard surfaces, painted wood, tiles, plastic laminate, glass, stainless steel, iron and other metals, for the degreasing of filters and extractor hoods. For hot/cold water engine cleaning, safe on motorbikes and scooters. Safe for use on aluminium surfaces.

EMU750/10/25 - Spray bottle ml.750 / Jerrycan kg. 10/25

**RED SUPER BIKE**

Self-polishing perfumed detergent for the cleaning of motorcycles, scooters and bicycles. Low in alkali, it loosens dust and grease caused by smog.

ERSB10/25 - Jerrycan kg. 10 / 25

**MOTOMEK**

Concentrated degreaser for all motorcycles and scooters: for the degreasing of engines, mechanical parts, forks, chassis, rims and all metallic parts such as exhaust pipes, sprockets, bolts, chains etc. Safe on aluminium alloys and on hard plastic sections. Suitable for the cleaning of mechanical parts in ultrasonic parts washers.

EMM10 - Jerrycan kg. 10

**LUXAN TOUCH**

Quick no-rinse polish, it enhances colour depth and, thanks to the Luxan Z nano-polymer contained in its formula, it provides a mirror-like shine and smoothness to the surfaces. Apply with a microfibre cloth.

ELXT750 - Spray bottle ml. 750 x 12 pcs

**LUX MICROFIBRE**

Extremely soft and smooth microfibre cloth, recommended for use with the LUXAN TOUCH nano-tech polish. In this way, the effectiveness of the product is not diminished by the absorption of the cloth, for the best possible results.

EXPM4 - 60x80 cm - Single pack

## RACE EXTREME HD GREASE

Special lubricant for all types of chains, including o-ring, x-ring and z-ring ones. Thanks to its foamy white consistency it immediately penetrates the chain. This product is waterproof, does not glide, resists to high temperatures up to 150°C and avoids early wear.

EGC200 - Spray can ml. 200 x 24 pcs

## RP 100 RAVVIVANTE MOTORI

Specific product for the restoration of the interior of the engine compartment, metal, plastic and rubber parts. Silicone-free, it does not leave any residues.

ERP400 - Spray can ml. 400 x 24 pcs

## Rims and Tyres

## LEGA EXTREME

pH-neutral decontaminating product, safe for use, without VOC, acid and soda free. It can also be applied without a high pressure cleaner with a glove/sponge and running water. It eliminates iron oxide from brakes by penetrating the surface and preventing reoxidation.

ELEX5/10/25 - Jerrycan kg. 5 / 10 / 25

## WHEEL WASH EXTRA

Low-foaming detergent for automatic wheel washers. Highly biodegradable, it contains special rinse agents for extra shiny rims. It makes the cleaning of the washer easier, as it stops dirt from sticking to the inside of the washing chamber.

EWV10 - Jerrycan kg. 10

## BLACK & WET

Super strong tyre shine for an intense and long-lasting shiny finish, it also protects the surface from cracking. Water-resistant.

EBWET400 - Spray can ml.400 x 24 pcs

## PLASTIC TYRE STORAGE BAG PE/F3

XXL white PE/LD tyre bags with a tyre print. Essential for storing tyres during seasonal change. Very resistant, made in Italy, for cars and SUVs. Product size: 80x30x100h cm.

EXSPG100 - Roll 100 pcs

# LEGA EXTREME

FOR THE DECONTAMINATION AND RENOVATION OF RIMS AND BODYWORK ACID FREE

Lega Extreme is the pH-neutral decontaminating product, safe for use, acid and lye-free. Incredibly versatile, it can be used with a high pressure cleaner or with a rim brush, a glove/sponge and running water. It can be safely used on shiny ALCOA aluminium wheels.

## Benefits

- It completely eliminates iron contamination caused by disk brakes;
- It makes the rim shiny and bright, as if new;
- Safe for use, even on the bodywork and the car glass;
- It does not burn the hands;
- It is a safe alternative to acid detergents that are harmful both for water treatment and for human health;
- It prevents new iron contamination for a few weeks.

## How to decontaminate the rims and bodywork

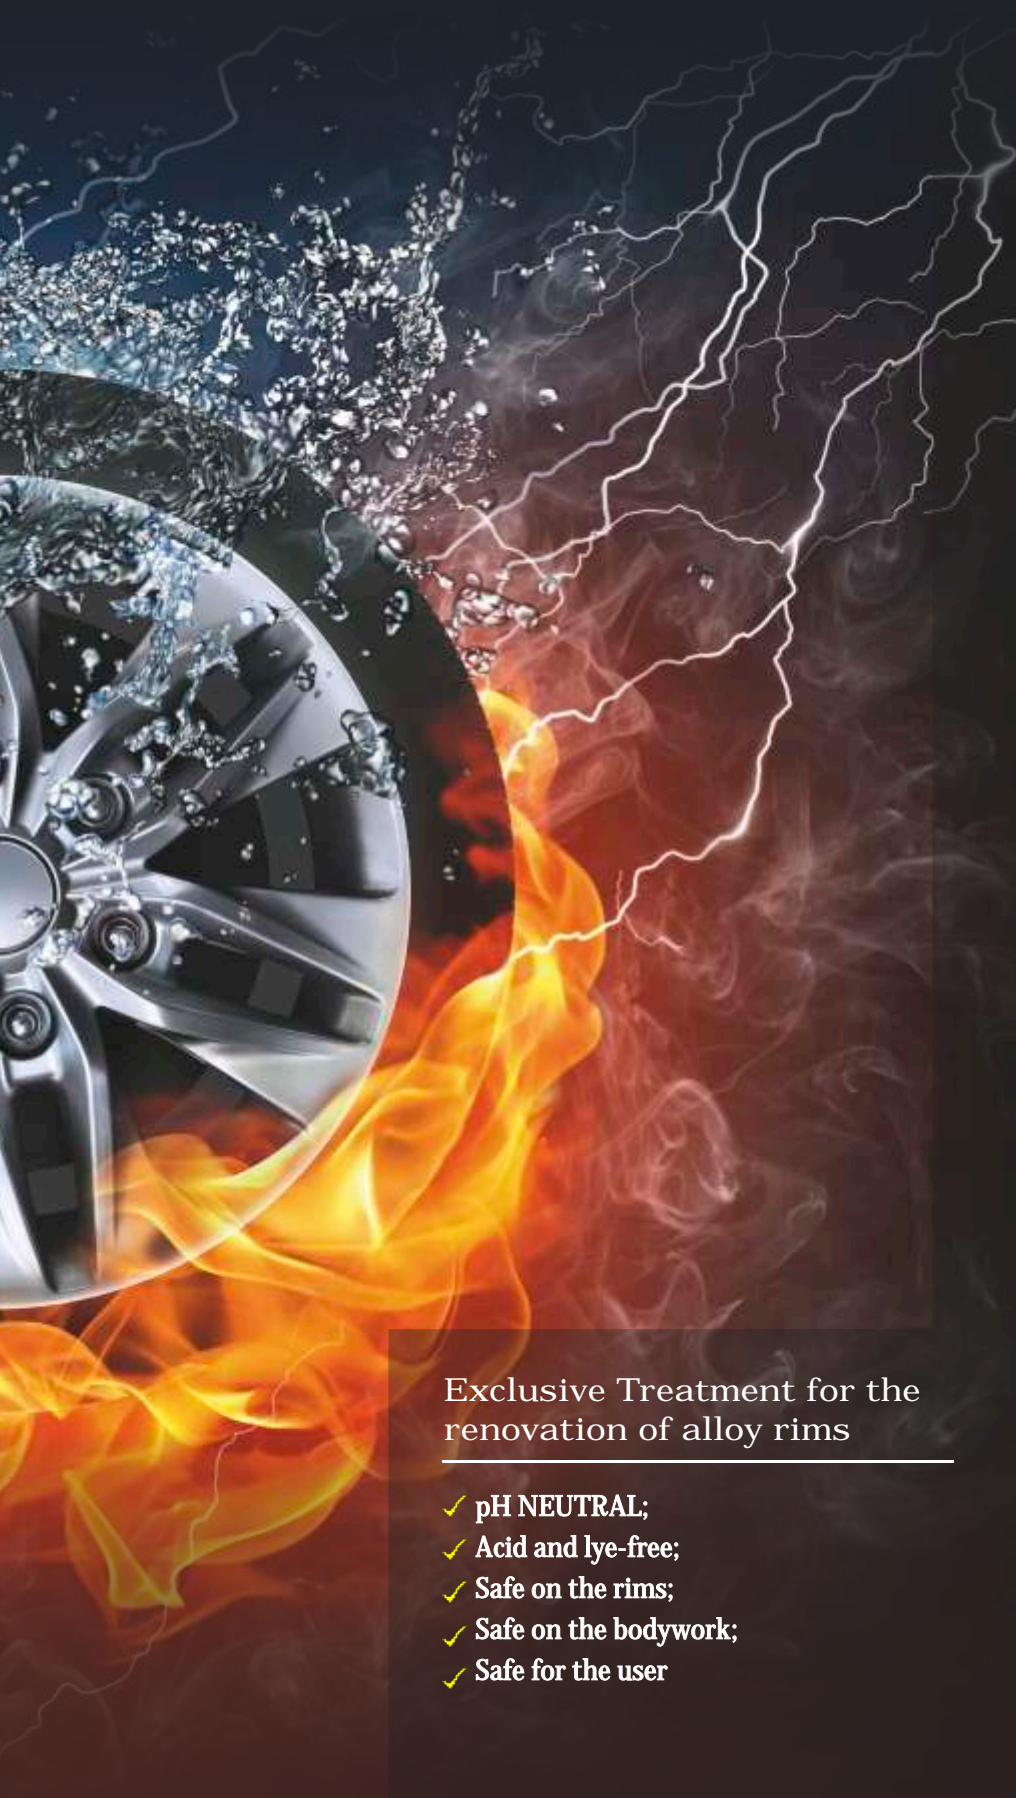

- 1 SHAKE WELL BEFORE USE
- 2 SPRAY THE UNDILUTED PRODUCT ON THE DRY SURFACE TO BE TREATED;
- 3 WAIT FOR 2-3 MINUTES
- 4 THE DIRT TURNS RED-PURPLE (IRON DECONTAMINATION UNDERWAY)
- 5 RINSE WITH HIGH-PRESSURE WATER JET

## Iron decontamination of the car bodywork

Removing iron contamination is the most important step to take before any polishing of the bodywork.

Lega Extreme eliminates the iron residues that contaminate the bodywork.

Iron decontamination  
of the rims

---

Rims BEFORE the Lega Extreme  
treatment

DURING the Lega Extreme iron  
decontamination

Rims AFTER the Lega Extreme treatment

Exclusive Treatment for the  
renovation of alloy rims

---

- ✓ pH NEUTRAL;
- ✓ Acid and lye-free;
- ✓ Safe on the rims;
- ✓ Safe on the bodywork;
- ✓ Safe for the user

# Professional Headlight Restoration Kit

## Polycarbonate headlight restoration

---

The ALTUR polishing kit allows you to easily and quickly restore even very damaged and opaque headlights.

Our polishes and pastes are formulated with a special nano-technology for guaranteed professional results that will last throughout the years without any yellowing of the polycarbonate.

---

## Processing steps

---

### 1 STEP - SANDING

Start with a sandpaper grain size that is suitable for the degree of opacity of the headlight;

### 2 STEP - COMPOUNDING

Polish with the A70 Fast compound, then apply the A40 Lux;

### 3 STEP - FINISHING AND PROTECTION

Finish off with our A05 Star polish

---

# PROFESSIONAL HEADLIGHT RESTORATION KIT

## The base kit includes

**Sanding Disc 75mm**  
—— EDA75xxxx - Pack 100 pcs

**A70 Fast Compound**  
—— E70F500 - Bottle gr.500

**A40 Lux Compound**  
—— E40L500 - Bottle gr.500

**Foam Backing Pads 90mm**  
—— Etxx90 - Single Pack

**Double Pile Microfibre**  
—— EMDP - Cloth 40x40 cm - Pack 5 pcs

**A05 Star Polish**  
—— E05S500 - Bottle gr.500

## Also available

### Mini-size ALS-R3 rotary polisher

Mini-size rotary polisher for the elimination of small imperfections. Excellent motor torque, high performance and incomparable longevity. M14 thread with soft start. Includes: 3 velcro backing pads (30 mm, 50 mm, 75 mm), 48 buffing pads and two extension rods for the rotating shaft.  
—— ELXR3 - Kit mini pads included

## Bodywork

Polishes, compounds and other products for the car bodywork. Our formulas are enriched with next-generation polishing nano-polymers, carnauba and other types of protective wax, for the best ease of use and an excellent car paint finish. This line includes products for the polishing, decontamination and sanding of the bodywork.

**A70 FAST**

Fast water-based rubbing compound with a strong corrective power. It eliminates all traces of sanding with grains lower than P1500. The A40 Lux paste is recommended as a following step to remove any hologram. For orbital polisher or manual application.  
EA70F500 - Bottle gr.500 x 6 pcs

**A40 LUX**

Universal water-based rubbing compound, with an "extra lux" finish, it eliminates all traces of sanding with grain higher than P1500. Recommended for use in combination with the A02 anti-halo polish. For all types of polishers.

EA40L500 - Bottle gr.500 x 6 pcs

**A05 STAR**

White protective shiny polish, with an extra smooth finish. Moderately abrasive, it eliminates all traces of sanding with grain over P3000. For all types of polishers and for manual application.

EA05S500 - Bottle gr.500 x 6 pcs

**CHECKUP**

Cleanser fluid designed to remove all residues of compounds, polishes, oils and waxes that allows you to check your work after the compounding phase. It provides a clean and anti-static finish before the application of waxes and sealants.

KCU500 - Bottle ml.500 x 12 pcs

PERFECT MATCH  
DOUBLE PILE

**LUXAN TOUCH**

Quick no-rinse polish, it enhances colour depth and, thanks to the Luxan Z nano-polymer contained in its formula, it provides a mirror-like shine and smoothness to the surfaces. Apply with a microfibre cloth.

ELXT750 - Spray bottle ml. 750 x 12 pcs

PERFECT MATCH  
CROFIBRA LUX

**LUX MICROFIBRE**

Extremely soft and smooth microfibre cloth, recommended for use with the LUXAN TOUCH nano-tech polish. In this way, the effectiveness of the product is not diminished by the absorption of the cloth, for the best possible results.

EXPM4- 60x80 cm - Single pack

**DOUBLE PILE MICROFIBRE**

An ALTUR exclusive product. Long fibres: for effective polishing. Short fibres: to remove excess compounds and polishes. Designed with seamless edges that leave zero traces on the wax, the ultrasonic-cut fabric avoids fraying. This microfibre makes the application and removal of wax, polish and compounds faster while improving the final shine.

EMDP - 40x40 cm - Single pack

**410/D POLISHING PAPER**

Roll of nonwoven fabric with a box dispenser, super soft, excellent for the application and working of the polish for the car bodywork. 250 sheets 26x38 cm.

EXPP - Single roll 1.9 kg

WITH BAG

### DUAL ACTION ALS-X8 POLISHER

Orbital 880 W polisher, with 8-mm orbit. Quick, powerful, efficient, safe, for professional results without risks. With speed variator and gliding safe on-off switch. Motor carbon brushes with automatic shut-off.

ELX8 - Spare parts available

### MINI-SIZE ALS-R3 ROTARY POLISHER

Mini-size rotary polisher for the elimination of small imperfections. Excellent motor torque, high performance and incomparable longevity. M14 thread with soft start. Included in the packaging: 3 velcro backing pads (30 mm, 50 mm, 75 mm), 48 buffing pads and two extension rods for the rotating shaft.

ELXR3 - Kit mini pads included - Spare parts available

### KIT MINI PADS FOR ALS-R3

Assorted 18-mini pad kit for mini size ALS-R3 rotary polisher

EXKTR3 - Kit mini pads for mini rotary polisher

### LUBRIFLEX

For the lubrication, dewaxing and decontamination of clay bars and blocks. Formulated with first-quality components to remove old traces of wax and sealant, insects and droppings, superficial plastic or colour streaks, and limescale. Delicate on the surfaces.

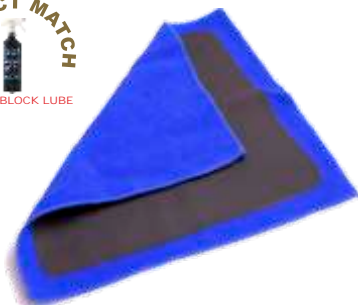

KLU500 - Spray bottle ml.500 x 12 pcs

### LEGA EXTREME

pH-neutral decontaminating product, safe for use, without VOC, acid and soda free. It can also be applied without a high pressure cleaner with a glove/sponge and running water. It eliminates all iron residues that contaminate the bodywork.

ELEX5/10/25 - Jerrycan kg. 5 / 10 / 25

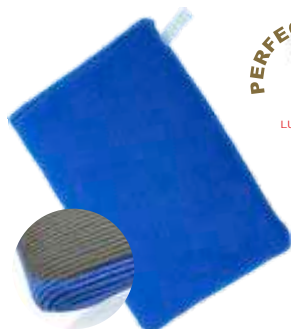

### MEDIUM CLAY CLOTH

Cloth for the quick and effective decontamination of the bodywork, to in combination with the Clay&Block Lube. Contrary to traditional clay bars, it can be rinsed and reused, and it lasts up to 4x more compared to its clay equivalents.

Size: 30x30 cm

NB85000003 - Single package

### MEDIUM CLAY GLOVE

Cloth for the quick and effective decontamination of the bodywork, to use in combination with the Clay&Block Lube. Contrary to traditional clay bars, it can be rinsed and reused, and it lasts up to 4x more compared to its clay equivalents.

EXGBCM - blue glove

### ALS BACKING PAD

Standard velcro backing pad for Dual Action polisher, manufactured with injection moulding. Quiet, long-lasting, suitable for high-speed polishers, it has a good thermal resistance. Designed for use both with wool and foam polishing pads, it can be used for more than 10,000 times.

EL875/125 / EL21P160 - Backing pad 75/125/160mm

TAPERED EDGE

### SOFT BACKING PAD M14

Soft velcro backing pad, suitable for all polishers with M14 thread. Manufactured with a soft polyurethane foam, it is characterised by an excellent flexibility and smoothness.

EXBPS70/123/148 - Backing pad 70/123/148mm

### MERINO WOOL POLISHING PAD

Natural merino wool polishing pad, soft, premium quality, with velcro. For polishing with abrasive paste and polishes.

ECL80/135/160 - Ø 80-135-160 mm.

### HEAVY CUTTING FOAM PAD

Tapered-edge foam pad, with high-density foam, central hole and blunt rounded edges. Its slim profile (180mm) and its special open-cell structure provide excellent durability and a controlled temperature. Very dense foam, ideal for the correction of evident imperfections and oxidation.

ETHC90/135/160 - Ø90 mm. / Ø 135 mm. / Ø 160 mm.

## TAPERED EDGE

### MEDIUM CUTTING FOAM PAD

Tapered-edge foam pad, with medium-density foam, central hole and blunt rounded edges. Its slim profile (180mm) and special open-cell structure provide excellent durability and a controlled temperature. Medium density foam, ideal for single pass corrections.

ETMC90/135/160 - Ø90 mm. / Ø 135 mm. / Ø 160 mm.

## TAPERED EDGE

### POLISHING FOAM PAD

Tapered-edge foam pad, with high-density foam, central hole and blunt rounded edges. Its slim profile (180mm), medium hardness and special closed-cell structure make it ideal for an excellent finish without holograms in one single step.

ETP90/135/160 - Ø90 mm. / Ø 135 mm. / Ø 160 mm.

## TAPERED EDGE

### ULTRA GLAZE FOAM PAD

Tapered-edge foam pad, with high-density foam, central hole and blunt rounded edges. Its slim profile (180mm), combined with its special softness and open-cell structure guarantee an excellent polish and wax application without allowing the products to dry on the surface or leaving holograms.

ETUG90/135/160 - Ø90 mm. / Ø 135 mm. / Ø 160 mm.

### MEDIUM SANDING BLOCK 30 mm

Disc sanding block, with velcro and PSA technology. Ideal for the elimination of small imperfections, scratches and defects in the car paint. Its small size make it very accurate and precise. For a milder treatment, it is recommended to add the sponge interface pad.

EXBB30 - Medium block 30 mm - Single pack

### SOFT INTERFACE PAD 32 mm

Soft interface pad, ideal for use with sanding discs and the rubber block when working on curved surfaces. Velcro attachment on both sides.

EXIS32 - Ø32 mm - Single pack

### SANDING DISCS 35 mm

35-mm sanding discs for absolute precision. They eliminate even the smallest impurity and achieve absolute perfection, even in the small details. They can be used dry or humid (for a stronger abrasive power) in combination with Lubrilux.

EDA35xxxx - Pack 100 pcs

24

### SANDING DISCS 75 mm

Latest generation sanding film that stands out in comparison to the other products currently on the market thanks to its mixture of abrasive material and extremely hard resins that provide a sanding of the highest quality. Available in different grit numbers.

EDA75xxxx - Pack 100 pcs

### MASKING FILM

Roll of electrostatic masking film, 400x300 cm, thickness 10 my. Colour: transparent white. Pros: rapid masking, less use of duct tape, reusage of the same film for other vehicles or for the undercoating phase in the painting the bodywork.

EXFILM - Roll mt. 300x4h in a box

### Zi-09 GALVANISING ZINC RICH PAINT

Galvanising zinc rich spray paint with shiny finish, fast drying, made with micronised zinc powder with purity > 98% mixed with aluminium powder. It offers long-lasting protection against corrosion and rust.

Ez400 - Spray can ml. 400 x 12 pcs

Technical Sprays

**MX-5 SPECIAL**

High-performance lubricant spray with 5 functions: anti-seize, lubricant, salt and corrosion protection, water resistance. Also excellent for cleaning and lubricating bicycle and motorcycle chains before lubing.

EW400 - Spray can ml. 400 x 24 pcs

**XP/90 ANTIGRIPPANTE**

Anti-seize lubricant spray for sliding guides, screws, nuts, bolts, shafts, pipes, motors and machine components. Classic formula that penetrates thoroughly in the areas to be treated. It eliminates superficial oxidation.

Es400 - Spray can ml. 400 x 24 pcs

**XP/90 GRASSO UNIVERSALE**

Multipurpose lubricant spray, slightly stringy, it provides protection from humidity and oxidation, as well as from corrosion and salt, thanks to its hydrorepellent finish.

EGU400 - Spray can ml. 400 x 24 pcs

**SIL 02 LUBRIFICANTE SILICONICO**

Multipurpose lubricant spray made of extremely pure silicone, it adheres quickly by creating a long-lasting film. No mess, does not dry out.

ELS400 - Spray can ml. 400 x 12 pcs

**RP 100 RAVVIVANTE MOTORI**

Specific product for the renovation of the interior of the engine compartment, metals, as well as plastic and rubber parts. Silicone-free, it does not leave any residue.

ERP400 - Spray can ml. 400 x 24 pcs

**DISSOLIDANTE SECCO**

This contact cleaner was specifically developed and tested for removing oxidation from electrical components and contacts. It penetrates rapidly and evaporates in just a few seconds without leaving any residues.

ED400 - Spray can ml. 400 x 24 pcs

**Jumbo**  
500 ml

**LAVAFRENI SPRAY**

Degreasing spray, solvent-based, without chlorinated solvents, perfect for the rapid cleaning of disc and drum brakes. Spray directly on the part to be treated, then finish with air blow gun.

ELAVF500 - Spray can ml. 500 x 24 pcs

**START QUICK**

This product is designed to help start heavy good vehicles as well as all diesel and petrol engines even in very cold weather. When sprayed into the air intake, it starts the engine via auto-ignition. With ether.

ES200 - Spray ml. 200 x 24 pcs

Lubricants

**BRAKE FLUID DOT4**

Solvent-based degreasing spray, free from chlorinated solvents, excellent for the rapid cleaning of disc and drum brake systems. Spray directly on the part to be cleaned, then finish with air pressure gun.

EBF4250/1000 - ml. 250 x 12 pcs / ml. 1000 x 12 pcs

## Antifreeze for Liquid Cooling Systems

**GEL XP -40°C**

Blue ethylene glycol-based permanent antifreeze, ready to use, for cooling and closed-circuit systems in standard and aluminium engines. With a nitrate, nitrite and amine-free inhibitor system. This products meets the TL 774 C standard.

EG40 - Bottle lt.1x12 / kg.4x3 / Jerrycan kg.25 - Drum kg. 220

**GEL XP -72°C**

Blue ethylene glycol-based antifreeze, pure, for cooling and closed-circuit systems in standard and aluminium engines. With a nitrate, nitrite and amine-free inhibitor system. This products meets the TL 774 C standard.

Eg72 - Jerrycan kg.4x3 / Jerrycan kg.25 - Drum kg. 220

**ECOGREEN XP -40°C**

Green propylene glycol-based permanent eco-friendly antifreeze, ready to use, for cooling and closed-circuit systems in standard and aluminium engines. With a nitrates, nitrites, silica and amine-free inhibitor system. For all vehicles. This products meets the TL 774 standard.

EEG40 - Jerrycan kg.25 - Drum kg. 220

**ANTIFREEZE XS2000**

Specific concentrated antifreeze for modern aluminium engines, formulated according to the specifics provided by car manufacturers using red or yellow antifreeze. With wear-resistant additives for aluminium alloys. This product meets the TL 774 C standard.

EGTF - Jerrycan kg.25 - Drum kg.220

**ANTIFREEZE XS2000 -40°C**

Permanent protective antifreeze, ready to use, for modern aluminium engines, formulated according to the specifics provided by car manufacturers using red or yellow antifreeze. With wear-resistant additives for aluminium alloys. This product meets the TL 774 D standard.

EGTF40 - Bottle Lt. 1 x 12 pcs / Jerrycan kg.25 - Drum kg.220

26

**ANTIFREEZE XS3000 G12+**

Concentrated antifreeze for radiators and cooling systems of modern vehicles with traditional and aluminium-alloy engines. Bright purple color, it can be mixed with all other antifreeze, thus creating a clear solution. This product meets the TL 447 D/F standard.

EGTFV - Bottle Lt.1 x 12 pcs - Jerrycan kg.25 - Drum kg.220

**ANTIFREEZE XS5000 G13**

Ethylene glycol-based antifreeze, with an inhibitor system that is formulated with a 100% Silanized Organic Acid, NAP-free (nitrites, amines and phosphates) technology. Life span: 250,000 KM in use or 5 years. This product meets the TL 774 J standard.

EGTFO - Lt.2 x 8 pcs - Jerrycan kg.25 - Drum kg.220

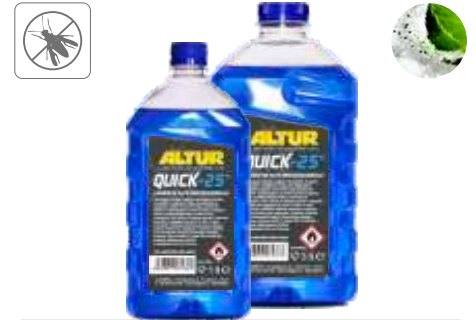

## Washer Fluid and Antifreeze Products

**QUICK LAVATERGI ESTIVO**

This summer washer fluid is specially formulated to eliminate bugs and various types of dirt. Non-greasy, it does not damage the rubber of the windscreen wiper blades. Perfumed.

EPVE - Bottle ml. 250x50 / lt.1x12 - Jerrycan lt. 10/25

**QUICK LAVATERGI -25°C**

Ready-to-use washer fluid, formulated specifically for winter. Excellent cleaning power, it offers protection from freezing down to -25°C. Non-greasy, safe on rubber, it does not clog the washer jets. Perfumed.

EPA1 - Bottle lt. 1x12 / Bottle lt. 3x4

**QUICK LAVATERGI -40°C**

Antifreeze washer fluid, it offers protection from freezing down to -40°C, non-greasy, non-damaging to the surfaces. Perfumed.

EPV - Bottle ml.250x50 / lt. 1x12 - Jerrycan lt.10/25/200

**BLUE QUICK LAVATERGI -70°C**

Antifreeze washer fluid, specially formulated to resist to extremely low temperatures. It offers protection from freezing down to -70 °C and beyond. Perfumed.

EPV70 - Bottle lt.1x12 - Jerrycan lt. 10/25/200

**X-ICE**

Instant de-icer, it quickly melts ice from the car glass and locks while cleaning the windshield. It prevents the formation of haloes and makes the wiper blades more fluid. Safe on rubber.

EIC750 - Spray bottle 750 ml x 12 pcs

**BENZ POWER**

Injector cleaner for petrol engines, it boosts the octanes (+2 points) with its antioxydant and lubricating power. It noticeably reduces the polluting gas emissions while preventing the formation of carbon deposits.

EXTFP250 - 250 ml can with pouring spout x 24 pcs

**DIESEL POWER**

Diesel injector cleaner, lubricates and cleans diesel engines. It boosts the cetanes while keeping the DPF filter efficient. It can also be used with biodiesel.

EXTDP250 - 250 ml can with pouring spout x 24 pcs

**DIESEL ANTIFREEZE -40°C**

Anti-gel diesel additive, it protects the fuel from freezing down to -40°C. It prevents paraffine from thickening, with the subsequent gelling of the diesel and clogging of the filter. Also suitable for use in bio-diesel engines (B5, B7, B10).

EXTDA200 - 200 ml can with pouring spout x 24 pcs

**BLUE POWER**

Diesel additive treatment for SCR technology (AdBlue). Its consistent use prevents the formation of crystals and limescale in the gelling of the diesel and clogging of the filter. Also suitable for use in bio-diesel engines (B5, B7, B10).

EXTAD300 - Graduated Bottle 300 ml x 24 pcs

## Spray Adhesives and Sealants

### AU 60 UNIVERSAL ADHESIVE

Universal spray adhesive for permanently bonding wood, light metals, rubber, glass, natural and synthetic fabrics, leather, plastic, polystyrene, etc. It resists to temperatures to 70°C. It offers a rapid and long-lasting perfect adhesion. Very fine uniform spray.

EASCS400 - Spray can ml. 400 x 12 pcs

### AR 03 FAST&STRONG ADHESIVE

Adhesive spray, fast action and high bond strength. Suitable for paper, cardboard, fabric, leather, PVC, for gluing metal to metal, and for hard surfaces. Also suitable for use on car roofs. Spray the product on each of the mating surfaces.

EASCT400 - Spray can ml. 400 x 12 pcs

### POLY PRIMER

Clear low viscosity spray for the preparation of the plastic substrate before the bonding phase with the Poly Power. Dries at room temperature.

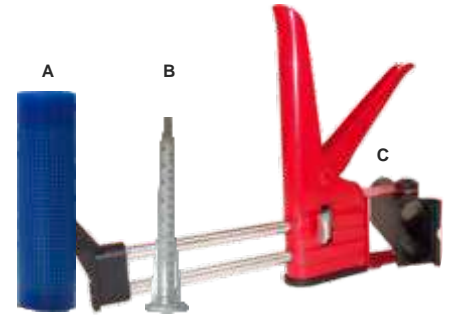

VIP200 - Spray ml. 200 x 12 pcs

### POLY POWER BLACK

Double cartridge epoxy adhesive for the quick plastic bonding of dashboards and for flexible and rigid bumpers. Black colour, available in two versions: 1-min super quick bonding, and 5-min bonding.

(A) VIP104 / (B) VIP105 - Double cartridge ml. 50 x 24 pcs

### GUN / NOZZLE / FILM

Gun and 16-element nozzles for application of the Poly Power glue. Plastic film for a correct and precise application, and a strengthening net.

(A) VIPRINF / (B) VIP600 - pcs10 / (C) PGG300 - Single pack

### POLY POWER SUITCASE

Handy suitcase containing a full kit for plastic repair: 1 pc GUN, 3 pcs POLY POWER B1, 3 pcs POLY POWER B5, 24 pcs nozzles, 1 film strengthened with a net, for a more durable application, 1 pc POLY PRIMER SPRAY, for perfect adhesion.

VIPVAL - Suitcase

**Supplementary Material**

**STEERING WHEEL COVERING**

Poly film steering wheel protector, sold in small tear-off rolls with self-locking rotary knob, elastic, adherent, 60 micron thickness.

EXCV - Roll 12x6 cm. x 10 pcs + 1 rotary knob

**PAPER FLOOR MATS**

Anti-slip floor mats, made with absorbent paper, with a generic blue "BENVENUTI A BORDO" print ("welcome on board" in Italian). It is possible to customise the print with your own brand.

EXCT400 - Sheet 55x45 cm. - Pack 250 pcs

**DISPOSABLE CAR SEAT COVER**

Pre-cut disposable car seat cover, made with low-density PE, 30-micron thickness. Size: 70x120 cm. With the ALTUR logo print and the slogan "ABBIAMO AVUTO CURA DELLA SUA AUTO" ("we took care of your car" in Italian).

EXCS120 - Roll 125 pcs / EXCSP120 - 7 Roll 125 pcs

**METAL SUPPORT W/ WALL MOUNT**

Metal support with wall mount for disposable car seat covers.

EXPB - Single pack

**PLASTIC TYRE STORAGE BAG PE/F3**

XXL white PE/LD tyre bags with a tyre print. Essential for storing tyres during seasonal change. Very resistant, made in Italy, for cars and SUVs. Product size: 80x30x100h cm.

EXSPG100 - Roll 100 pcs

**DEMINERALISED WATER**

Extra-pure demineralised water for accumulators, batteries, aquariums and for ironing. Not suitable for pharmaceutical or alimentary use.

EAD - Jerrycan lt. 10 / 25 / 1000

**JERRYCAN TAP**

Plastic tap for jerrycans, extremely functional for dosing anti-freeze, washer fluid, detergents, hand wash and sanitising gel.

RUBI - Single pack

**ALTUR BOTTLE WITH TRIGGER**

Polyethylene sprayer equipped with a graduated bottle with a 1 litre capacity. Universal usage, not suitable for aggressive liquids.

G052BL

**TRIGGER 2-WAY**

Professional trigger with an exclusive double-action system that sprays when pressed and when released, which creates a continuous spray with minimal effort. BLUE HEAD: EPDM, for neutral and alkaline detergents; LIGHT-BLUE HEAD: VITON, for liquids with an acid pH and perfumes.

CHS2WAY (EPDM) / CHS2AZZ (VITON) - Pack 70 pcs

**PERFECT MATCH**

BRAKE 601N and EBT 910

**NEW**  
with depressurisation valve

**A-TYPE 1.5 PRO PA VITON PUMP**

Pressure pump sprayer with viton seals, 1.5-litre capacity, for aromatic and aliphatic hydrocarbons, oils and petroleum solvents. Do not use with alkalis and ketones (including acetone), alcohols and acid products. For: brake and engine cleaning, degreasing, dewaxing products, etc.

R18805 - Pump sprayer with 1.5L bottle capacity - Single pack

**SUPER PRO 1.5 - LIGHT BLUE**

Multi-purpose sprayer, for a fine, controllable, high-quality mist, perfect for applying detergents. With FPM seals.

EXVHDA15 - Sprayer with 1.5L bottle capacity - Single pack

## IK 9 MULTI SPRAYER

Professional sprayer for the application of detergents, ideal for acid products. With an adjustable nozzle, product level marker and an adjustable lance. Total volume 9 litres. Liquid capacity 6 litres. Shoulder strap for transport. Spare parts available.  
EXVAP9

## IK 12 MULTI PRO SPRAYER

Professional sprayer for the application of detergents, ideal for acid products. With an adjustable nozzle, product level marker and an adjustable lance. Total volume 12 litres. Liquid capacity 9 litres. Shoulder strap for transport. Spare parts available.  
EXVAP12

## Floor Cleaning Products

## DRY SOL SEPIOLITE

Absorbing powder made with sepiolite, inert, non-abrasive, non-flammable, non-toxic. It absorbs oil, detergents, antifreeze, solvents and gasoline, thus preventing fire ignition.

EDRY25 - Bag kg. 20

## ANTI-FOAM

Silicone anti-foam for use in water treatment systems or parts cleaners with water-based detergents.

EAS1/25 - Bottle lt. 1 x 12 pcs / Jerrycan kg.25

## FLOOR CLEAN

Floor and hard-surface cleaning detergent, perfumed, with controlled foam, suitable for removing heavy dirt from industrial floors. It emulsifies and eliminates grease, glycol and brake fluid residues. For manual cleaning or with professional floor scrubbers.

EFC10/25 - Jerrycan kg. 10 / 25

## XP/39 03P

This product degreases the surfaces thoroughly even without any type of mechanical or manual action. It eliminates both dust and grease. Excellent for the degreasing of engines and mechanical parts. Ideal also for floor cleaning. Lemon fragrance.

EP3925 - Jerrycan kg. 25

## POWER EXTRA

Degreasing detergent, characterised by a reduced amount of foam. Suitable for universal use: engines, vehicles, wheels, industrial and resin floor, and for all applications where a strong detergent is needed. Do not use on aluminium and alloys. Formulated with natural surfactants.

EPWX25 - Jerrycan kg. 25

## VIPER

Multipurpose perfumed degreaser, for hard surfaces, plastic, fabric, leather, painted wood, stainless steel, industrial floors. It eliminates both organic and inorganic dirt while revitalising the colours of the surfaces. Ideal for use in the kitchen on filters, extractor hoods, counters and sinks. Contains caustic substances.

EVIP10/25 - Jerrycan kg. 10/25

## EMULSOL PL2814

Concentrated atoxic microemulsion, low-odour, for the rapid cleaning and degreasing of small mechanical parts, metal sheets, petrol tank reclamation, the elimination of greasy and bituminous residues from metallic surfaces, the dewaxing of paraffine wax and the cleaning of workshop floors. It also eliminates the traces left by forklift and pallet truck tyres.

EEMU25 - Jerrycan kg. 25

30

## Sanitising Products

### SPECTRAGENIC

Concentrated multipurpose sanitising detergent. It cleans and sanitises the surfaces where it is applied thanks to the combined action of its degreasing agents and the active ingredient Dodecyl Dipropylene Triamine. It can be used with a sprayer and a rag, a mop, with a professional floor scrubber, with a wet vacuum cleaner, a compressed air gun (Tornador), sprayed and then rinsed, and/or sprayed on the mats and left there to dry.

ESPG5/10/25 - Jerrycan kg.10/25

### DEOSAN

Sanitising hard-surface detergent, pine fragrance, ideal for all environments where a high degree of hygiene is required: hard and tiled surfaces, toilets, rubbish bins, etc. It can also be used manually with a mop or with a professional floor scrubber.

EDS25 - Jerrycan kg.25

Guarda il video e scopri come usare il prodotto

### GERM STOP AMBIENT

Multipurpose sanitising spray formulated with an alcohol-based solution and the active ingredient Dodecyl Dipropylene Triamine. Spray can equipped with a "one shot" valve for individual treatments, perfect to sanitise car interiors, air conditioning and small rooms. Fresh fragrance.

EGSS200 - Spray can ml. 200 - Pack 24 pcs

### GERM STOP COMBI

Multipurpose sanitising spray formulated with an alcohol-based solution and the active ingredient Dodecyl Dipropylene Triamine. Extremely versatile, it quickly sanitises all surfaces, even the most difficult and delicate ones: fabric, leather, sofas, chairs, keyboards, PCs, calculators, grocery, bags, delivery boxes, wardrobes, doors, shoes, clothes, etc. Whatever surface you think of, you can treat it with this product! Fresh fragrance.

EGSS400 - Spray can ml. 400 - Pack 12 pcs

### HYGIENVAP

Rapid sanitising perfumed cleaner. Ready to use, suitable for all surfaces, even the most delicate ones. It can be used with a sprayer and a piece of paper; it can also be nebulised with the "dry fog" mode thanks to the Microvid device, by setting it on air recycling mode. It contains detergent, ethanol (20%), hydrogen peroxide (0,5%) and the active ingredient Dodecyl Dipropylene Triamine (according to the UNI EN 14348, EN 1276, EN 144776 standards).

EHV5/10 - Jerrycan lt.5/10

### GERMI STOP

Sanitising hand gel with alcohol > 80% v/v. Formulated according to the WHO guidelines. The active oxygen in its formula guarantees a superior sanitising action compared to a common hydroalcoholic gel, while the glycerol keeps the hands soft and protected. Lightweight formula that dries fast and does not leave any sticky residue.

EGS - Flip top bottle ml.100 - Dispenser ml.500/1000 - Jerrycan 5 L

## Hand Hygiene

### MIRACLE FRESH

Perfumed hand cleaning paste, alkali-free formula, leaves the hands soft. Ideal to eliminate intense dirt, grease, carbonium residues, minerals, dirt from engine cleaning. Does not clog drains.

EXP4 - Bucket kg.4 x 4 pcs

### EXTRA PRO CARE

Fluid hand cleaning paste, odourless, with collagen. This formula keeps the skin soft and prevents any dermatological issues. Universal use, nonylphenol and wood dust free, does not clog drains.

EXPCGE5 - Jerrycan lt.5 x 4 pcs

### MIRACLE PLUS

Fluid hand wash, with fine microbeads that make it suitable for the elimination of heavy dirt. It eliminates grease, oil, tar, soot, sludge, resin, gum preparations, ink, varnish, putty, mastic, glue and other similar products. Nonylphenol-free, does not clog drains.

EXMP4 - Jerrycan lt.4 x 4 pcs

### MIRACLE MILLEDOSI

Semi-fluid hand cleaning paste, with sour lemon fragrance, formulated to eliminate intense dirt; with mineral particles, suited for all skin types. Ideal for use in workshops, in the automotive sector in general and in the industry. Does not clog drains.

EXPS3 - Bottle kg. 3 x 3 pcs

### MIRACLE AGRUMI

Hand washing gel with different grain sizes and a natural antibacterial agent. This strong degreasing formula contains a special orange extract that combined with a synthetic abrasive material make it ideal for use in workshops, carpentry, etc. Does not clog drains.

EGA4 - Jerrycan lt.4 x 2 pcs

32

### CREMA LAVAMANI MIRACLE

Fluid lemon-scented hand washing cream. This formula contains special antibacterial ingredients as well as glycerin, to keep the skin soft and prevent it from cracking. Perfect for wall-mounted soap dispensers, ideal for use in workshops, carpentry, industry, etc.

ECM10 - Jerrycan kg.10

### SAPONE LAVAMANI MIRACLE

Fluid hand soap, lemon fragrance, with surfactant and antibacterial ingredients. Suitable for medium-light dirt, perfect for use in offices, stores, public spaces and all environments where a non-abrasive product is recommended. Ideal for use in wall-mounted dispensers.

ESL1/10 - Bottle lt. 1x12 pcs / Jerrycan kg.10

### GERMI STOP

Sanitising hand gel with alcohol > 80% v/v. Formulated according to the WHO guidelines. The active oxygen in its formula guarantees a superior sanitising action compared to a common hydroalcoholic gel, while the glycerol keeps the hands soft and protected. Lightweight formula that dries fast and does not leave any sticky residue.

EGS - Flip top ml.100 - dispenser ml.500/1000 - Jerrycan 5 L

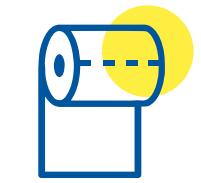

### SOAP/SANITISER DISPENSER LT.1

Wall-mounted dispenser for hand soap or sanitiser, designed with an airtight dispenser following the HACCP principles to guarantee the best standard of hygiene. Dosing with manual pull lever. Size: 300x125x100mm

EXDSL12 - 1 lt. capacity - Single pack

Consumables

**ROLL AZZURRA 3 veli**

Industrial paper coil made with fine blue cellulose, embossed, highly absorbent. Ideal for use on water, oils, acids, solvents. Does not leave any lint or residue. Inner core Ø: 4.5 cm.

ECB3V - Heat shrink-wrapped pack with 2 rolls

**ROLL PURA CELLULOSA 2 veli**

Industrial paper coil, 100% long-fibre cellulose. Embossed paper with anti-bacterial treatment. Highly absorbent, it stays strong even when wet. Suitable for glass cleaning. Inner core Ø: 8 cm. Roll Ø: 28 cm. Sheet size: 34x27h cm

EC1002V - Heat shrink-wrapped pack with 2 rolls

**ROLL EXPORT 2 veli**

Industrial white paper coil, 80% cellulose and recycled short-fibre paper, embossed. Good mechanical resistance, highly absorbent, good traction even when wet. Inner core Ø: 8 cm. Roll Ø: 28 cm. Sheet size: 34x27h cm

ECNEX - Heat shrink-wrapped pack with 2 rolls

**ROLL MILLEUSI**

Industrial white paper coil, 100% white cellulose, textile-like finish. Highly absorbent, excellent strength even when wet. Inner core Ø: 8 cm. Roll Ø: 28 cm. Sheet size: 30x24h cm

ECM2V - Heat shrink-wrapped pack with 2 rolls

**ROLL AVANA 2 veli**

Industrial beige paper coil, 80% cellulose and short-fibre kraft paper. Excellent mechanical resistance, no lint residues. Inner core Ø: 8 cm. Roll Ø: 28 cm. Sheet size: 34x27h cm

ECAV3V - Heat shrink-wrapped pack with 2 rolls

**INDUSTRIAL PAPER HOLDER**

ABS holder for industrial paper rolls, it can be placed on a table or mounted on the wall. Size: 25x30.5x44h cm.

EXDPC - Dispenser ABS

**ROLL SFILAMENTO INTERNO 2 veli**

Centrefeed paper roll, 100% cellulose, pre-cut, for hand cleaning in all sectors. Good resistance to traction even when wet, anti-pulp treatment. Roll length: around 140 metres. Inner core Ø: 5 cm, centrefeed. Roll Ø: 20 cm. Sheet size: 30x22h cm

EXCA12 - Paper roll kg.1.2 x 6 pcs wrapped in heat shrink

**CENTREFEED ROLL DISPENSER**

ABS dispenser for centrefeed paper roll, equipped with lid and safety key, for the best hygiene standard. Dispenser size: 26x34h cm. Maximum roll Ø: 24.5 x 26.5h cm

EXCASM - Dispenser - single pack

**MAGIC STURELLO**

Acid-based drain opener. It immediately unclogs any pipe without damaging them.

EMS1 - Bottle ml.1000 x 4 pcs

**LAVATUTE**

This detergent is specifically formulated to clean workwear from stubborn stains such as: oil, synthetic oil, diesel, grease and other substances. It is recommended to soak the clothes before washing.

EDL4/10 - Jerrycan kg. 5x4 pcs / Jerrycan kg. 10

**REFUSE SACKS**

High-quality refuse sacks, tie top, made with recycled polyethylene, 80-micron thickness, weight 145 gr. Excellent mechanical resistance.

EXSPP - 1 pack 90x120 x 20 kg. COLOUR: BLACK

## Sostenibilità e attenzione per l'ambiente

### Sustainability and respect for the environment

Per noi di ALTUR la salute delle persone e il rispetto dell'ambiente sono un impegno importante. Tutti i prodotti ALTUR rispondono ai requisiti delle normative nazionali e comunitarie del settore, tra le più importanti:

- il Reg. CE 648/04 sulla biodegradabilità totale dei tensioattivi
- il Reg. CE 1907/06 REACH (Registration, Evaluation, Authorization of CHemicals)
- la Direttiva CE 2/09 sulla limitazione d'impiego delle sostanze pericolose
- la vigente normativa sulla Cosmetica

ALTUR utilizza solo materie prime sicure per l'utilizzatore e l'ambiente. Nel nostro laboratorio vengono utilizzati anche tensioattivi di origine naturale e vegetale e si ricercano continuamente nuove materie prime innovative prediligendo quelle dichiarate ECO-LABEL (Sistema di etichettatura volontario per prodotti al consumo che garantisce che il prodotto che lo espone sia progettato per limitare al minimo il proprio impatto ambientale in tutto il suo ciclo di vita: dalla produzione allo smaltimento in un'ottica di sostenibilità).

We at ALTUR are committed to protecting public health and the environment. All ALTUR products comply with national and European regulation requirements for this sector. Some of the most important ones include:

- The Regulation (EC) No 648/2004 on the total biodegradability of surfactants;
- The Regulation (EC) No 1907/2006 REACH (Registration, Evaluation, Authorization of CHemicals);
- The Commission Directive 2009/2/EC on the limitation of the use of dangerous substances;
- Current legislation on Cosmetics.

ALTUR uses only safe raw materials with a low environmental impact. In our laboratory, we also use natural and plant-based surfactants, and we are constantly looking for new, innovative raw materials, with a preference for those with an ECO-LABEL. This is a voluntary labelling system for that guarantees that the consumer product displaying it has been designed to have a minimum environmental impact throughout its life cycle: from production to waste management, all carried out with a sustainable approach.

### **Esente da Fosfati ed NTA**

---

Questo simbolo rappresenta l'impegno sempre crescente negli anni, per lo studio di formulazioni esenti da Fosfati ed NTA, che rispettino l'operatore nel momento dell'utilizzo del prodotto tutelandone la salute, nonché l'ambiente che ci circonda. Lo scarico eccessivo di Fosfati nelle acque provoca la crescita abnorme della flora acquatica la cui decomposizione necessita di un'enorme quantità di ossigeno che viene quindi sottratto agli organismi animali presenti, provocandone l'asfissia. L'NTA presenta invece un effetto tossico indiretto, perché si lega a metalli pesanti rendendoli solubili in acqua; quindi i suoi prodotti di degradazione sono altamente cancerogeni e possono inquinare le falde acquifere e l'ambiente marino.

---

### **Phosphate and NTA free**

---

This label represents our constant commitment to the development of formulations that are both Phosphate and NTA-free, that are respectful both of the user's health and of the environment. The excessive presence of phosphates in wastewater causes the abnormal growth of aquatic plants, whose decomposition requires an enormous amount of oxygen. This is taken away from the aquatic animals, which results in their asphyxiation. NTA, on the other hand, has an indirect toxic effect, because it makes heavy metals water-soluble. The byproducts of the degradation of this substance are highly carcinogenic and can pollute both groundwater and the marine environment.

---

### **Coloranti naturali**

---

Altur, sempre attenta all'ambiente e al lavoratore, utilizza coloranti di origine naturale per la fabbricazione dei suoi prodotti. Tutto ciò per una maggiore biodegradabilità del prodotto e per la tutela dell'operatore.

---

### **Natural colorants**

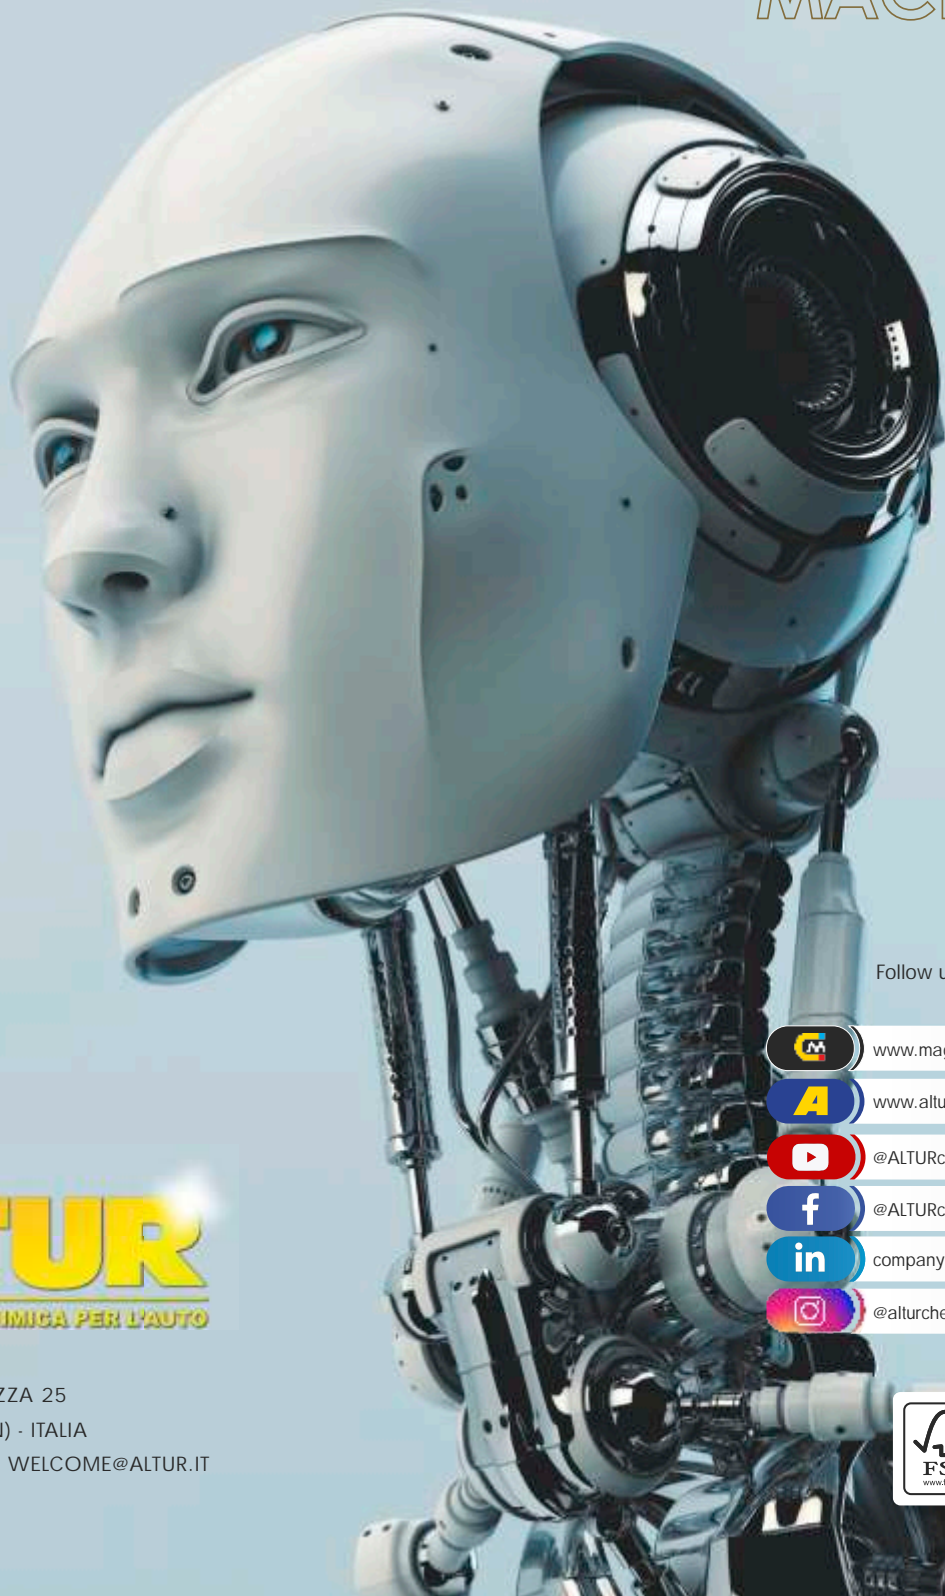

---

ALTUR is a company that cares about the environment and the health of the workers. For this reason, the colorants used in the ALTUR products are all of natural origin, to ensure a greater biodegradability and preserve the health of the user.
